**Level:** PhD  
**Course title:** Specific Topics of Industrial Organic Chemistry (DSH-703)  
**Status:** Elective  
**ECTS:** 15  
**Requirements:** None

**Learning objectives**  
Improve knowledge of basic raw materials and chemicals used in the process of organic chemical industry.

**Learning outcomes**  
Capability for self-selection of raw materials and synthetic processes for the industrial production of base products and fine chemicals.

**Syllabus**  

**Theoretical instruction**  

**Practical instruction**  
The exercises follow the lecture material.

**Weekly teaching load**
