

<b>Study programme:</b> BAS Tourism			
<b>Course title:</b> Tourism and sustainable development (T314)			
<b>Teacher:</b> <a href="#">Vladimir Stojanović</a>			
<b>Status:</b> Obligatory			
<b>ECTS:</b> 7			
<b>Requirements:</b> No			
<b>Learning objectives</b> The course goal is getting familiarised with complex relationships between tourism and environment through sustainable tourism. The sustainable tourism should increase positive and diminish negative impacts on the environment.			
<b>Learning outcomes</b> Training student to introduce sustainable development theoretical facts in practice. Prevention of environmental pollution and degradation caused by tourism industry. Comprehension of complex environmental impacts (ecological, economical, social).			
<b>Syllabus</b> <i>Theoretical part:</i> Introducing sustainable tourism (ecology, environment, sustainable development, tourism as a system – an environmental perspective); Tourism's relationship with the environment (environmental and social impacts of tourism); Tourism planning and environment (carrying capacity, environmental impact analysis, limits of acceptable change, zoning and tourism, codes of conduct for tourism); Tourism in protected areas (IUCN protected areas categories and tourism; tourism in national parks, sustainable tourism in protected areas); Ecotourism (ecodestination, ecotourists, ecolodge, ecotourism and local communities, ecotourism strategy); Sustainability and tourism (sustainable tourism strategy, indicators of sustainable tourism).  <i>Practical part:</i> The case studies analysis. Classification and presentation of the thematic seminar papers accompanying theoretical classes.
