Study programme: BAS Tourism

Course title: Establishment of hunting ground and hunting management (T349)

Lecturer (Name, Middle name, Surname): dr Vladimir N. Marković

Status: obligatory for module Hunting Tourism

ECTS: 7

Requirements: No requirements

Learning objectives

The aim of the course is to familiarize students with the new Law on Hunting and other laws in the field of hunting. The goal is to introduce students to the measures and means to achieve the objectives of hunting ground management, species selection and game breeding methods, and training for the production of the hunting management plan and documents.

Learning outcomes

In addition to acquiring new skills in hunting legislation, students will be fully trained in the management of hunting grounds, which includes operations as the counting game in hunting ground, making hunting grounds managing plans, annual management plans, interim management plans and management plans of hunting areas.

Syllabus
