FINAL PROJECT

We made a poem about intercultural connections, we mentioned everyone's name and country. We named the poem „Harmony of Hearts: An Ode To Intercultural Connections”

Harmony of Hearts:

An Ode to Intercultural Connections

In lands diverse, where cultures intertwine,
Intercultural bonds, like stars that shine,
A tapestry of souls from every shore,
In unity and love, we can explore.

In China's embrace, where ancient tales unfold,
Danyi's spirit, like a phoenix, bold,
From the Great Wall to the Yangtze's flow,
Her heart's connection, like the softest glow.

In France, where romance fills the very air,
Romane's laughter, her joie de vivre so fair,
From Parisian streets to vineyards on the Rhône,
Her presence, like a vibrant artful tone.

In Spain, where fiery passion always burns,
Pablo's fervor, a dance with every turn,
From flamenco rhythms to sunsets on the coast,
His fervent soul, a love that's never lost.

In Serbia's embrace, where history's pages turn,
Nikolett's strength, a fire within, a yearn,
From Belgrade's heart to the Danube's gentle flow,
Her resilience, like a steady, soothing woe.

Across the world, these souls do interweave,
With bonds that time and distance can't deceive,
Intercultural connections, strong and true,
In this global tapestry, they're the glue.

So let us celebrate this worldly dance,
As cultures merge, we have the chance,
To learn, to love, to grow, and to explore,
Our intercultural connections, we adore.
